While optical visuality, according to Riegl, is contingent on distance, privileges the perception of the relative positions of objects in space, and depends on the distinction between the viewer and the object viewed, haptic visuality obliges the viewer to synthesize disparate sensual impressions, paying particular attention to those on the surface of an image, which seem to offer tactile impressions.

Evelina, Or, the History of a Young Ladys Entrance into the World

Meanwhile, in a faraway dimension, a lowly castle watchman, an ancient and partially demented Knight, along with a prophetic, but ominous raven work together to lead Sean and his three friends into alternate realities where they struggle through trials and challenges that eventually reveal that it is up to their generation to help humanity rise above its self-destructive ways, no matter what the personal cost to .

As for the Spanish language, I don't know if, in common usage, distinctions are made between "fine arts" and "practical arts. They then interview Day Schildkret, founder of Morning Altars to discuss the connection of nature with art. There is another list of the parables in chronological order floating around on the web, but it lists only 35 parables and does not cite a source for the chronology. He and his wife currently resides in London, with whom he is setting up an urban food garden and hosting popup dinner events, where guests may savour a taste of their "edible storytelling" experiences.
